BEVERLY CITY DIRECTORY AND NORTH SHORE MAP

1910

KEY TO MAP

The Numbers on the Map show the Location of Summer Residents and Shore Estates.

Names of owners are given, and when property is rented by others the name of the occupant is given separately.

Explanatory Note.—The numbers given in this key refer to duplicate numbers on the map. These numbers are arranged in order as nearly as possible in Beverly, as follows: Numbers 1 to 86 are on or near the shore, beginning at Hale, near Ober street, and ending near the Manchester line; numbers 87 to 155 are away from the shore, beginning near the Manchester line and ending near the northern and western city boundaries. The rule is approximately the same in Manchester. In Wenham and Hamilton, the lower numbers are near the center of the town. Where no city address is given, the residence is, with a few exceptions, in the city or town under which the name is classified. Abbreviations: av., avenue; (b.), boards; (B.), Boston; Brook., Brookline; byd., beyond; Comm., Commonwealth; n., near; opp., opposite.

PREFACE

The eighth volume of the City Directory, giving all the latest street numbers as made by the city last year, will be found a valuable handbook to many for this information alone. A slight increase in population is shown over 1909, which goes to show that Beverly's growth is a healthful one. The large percentage of changes made from the matter of last year's book shows clearly that the yearly canvass of the city has become a necessity for anything that approaches accuracy in a directory. We have, as usual, made one thorough, and a secondary canvass of the whole city, and present herewith the result: As complete and carefully-compiled a Directory as we believe it possible to issue. The married women's names are inserted by the usual method we have adopted.

The map, which has been carefully corrected again this year, shows all new streets and other changes up to date. The special information in regard to the location of the summer residences is a valuable feature of this Directory and can be found in no other. Both key and map show the latest corrections in the district comprising Beverly, Manchester, Hamilton and Wenham.

Our thanks are tendered to all who have furnished information, and especially to our numerous subscribers and advertising patrons.

CITY OF BEVERLY

STREET AND HOUSE DIRECTORY

Giving the location of the streets, places, parks, squares, etc., and showing what other streets and places run from them or across them, with the point at which they intersect. The system adopted for numbering the streets of the city is that a person starting at the beginning of any street, and following along with the numbers, every even number will be on the left and every odd number on the right hand, with the names of heads of families and persons in business in the order of location.

The cipher (0) is used to designate houses or buildings without numbers. The dash (—) is used to show where connecting streets and avenues cross or intersect, when such intersections or crossings have no numbers, and also to designate railroad crossings and bridges, parks, etc.

When there is more than one family in a house, the down-stairs name is given first.

Abbreviations: Ave., avenue; byd., beyond; jct., junction; n., near; opp., opposite; r., rear; s. r., summer resident, etc., etc.

CITY OF BEVERLY

BUSINESS DIRECTORY

Beverly, clean, healthful and beautifully located on the North Shore with seven miles of the most charming views to be found on this continent, recommends itself to all classes of manufacturers and business men on account of its first-class rail and water facilities and equitable freight rates to all shipping points. Its most significant growth proves it to be the coming city of this part of the Massachusetts coast. Within its limits are scores of millionaires' and multi-millionaires' palaces; but its life and vital energy are shown by the fact that the manufacturing industries, comprising shoes, machinery, automobiles, oiled clothing, foundries, enameling works, planing mills, wood and paper boxes, grain elevators, electric works, etc., are employing a thrifty and well-paid, intelligent people who are contributing to the busy growth of the city. The shoe industry, established more than a century ago, alone pays one million dollars per year in wages. The United Shoe Machinery Company, occupying the largest reinforced concrete factory plant in the world and employing 3,000 to 4,000 skilled mechanics, pays a wage of over one and one-half millions per year. The New England Oil Company has its New England terminal here and docks its fine steamships running from Port Arthur, Texas. Spur tracks of the Boston & Maine Railroad connect with all the wharves. Population of Beverly, 1910, estimated about 20,000. Eighteen miles from Boston on the Boston & Maine Railroad. Center of the Boston & Northern Electric Railway system connecting with every important city and town in eastern Massachusetts and New Hampshire. Superior harbor. Three banks, daily and weekly newspapers. Excellent fire department. Good sewers. Pure drinking water. Well-lighted streets. First-class public schools.

NOTE.—It has been found essential (as a general rule) to insert names of firms under the ONE heading only which best represents them, except in the case of patrons, when extra insertions are sometimes made.
